SUMMARY

Flutter Developer with 2+ years of hands-on experience building cross-platform mobile and web applications using Dart and Flutter. Built a 77-screen multilingual educational platform and data-driven admin systems using BLoC/Cubit, MVVM/Clean Architecture, Firebase, Supabase, REST APIs, and payment integrations. Focused on scalable architecture, responsive UI, secure access control, and maintainable code.

TECHNICAL SKILLS

Languages & Frameworks: Dart, Flutter
State Management: BLoC, Cubit, Provider
Architecture & Principles: Clean Architecture, MVVM, Repository Pattern, SOLID Principles, Object-Oriented Programming (OOP), Dependency Injection
Backend & API Integration: Firebase, Supabase, REST APIs, Third-Party API Integration
Firebase Services: Authentication, Cloud Firestore, Cloud Storage, Firebase Cloud Messaging (FCM)
Local Storage: Hive, SharedPreferences
Navigation & Dependency Injection: GoRouter, GetIt
Development Tools: Git, GitHub, Postman, Android Studio, VS Code, Figma
Mobile Development: Responsive & Adaptive UI, Localization, Custom Animations, Payment Gateway Integration

---

PROJECT EXPERIENCE

Sintir Admin Panel | Flutter Web Developer | Feb 2026 – Apr 2026

- Developed a responsive Flutter Web admin platform for managing courses, users, payments, analytics, and support operations across the Sintir educational ecosystem.
- Architected the application using MVVM, BLoC/Cubit, GetIt, and GoRouter, integrating Firebase Authentication, Cloud Firestore, Supabase Storage, and Supabase Edge Functions.
- Implemented database-driven Role-Based Access Control (RBAC) with granular view/edit permissions and immediate session invalidation when user permissions change.
- Built course and user management workflows, search and filtering, support tickets, messaging, enrollment analytics, and backend-driven payment and wallet monitoring.

Sintir | Flutter Developer | Jan 2024 – Dec 2025

- Developed a 77-screen educational application supporting Arabic, English, and French, with light/dark themes and dedicated student and instructor workflows.
- Built course, content, and assessment management workflows, including lectures, videos, enrollment, timed exams, attempt limits, mistake tracking, and performance analytics.
- Integrated Paymob-backed payment and wallet workflows for course purchases, wallet balances, payout requests, and transaction status tracking.
- Implemented device-based authentication and screenshot prevention mechanisms to protect educational content.

GitHub: github.com/Ziad-Gamal12/Sintir

In Egypt Admin Panel | Flutter Web Developer | Jul 2025 – Dec 2025

- Built a responsive Web-based management system to oversee tourism operations, featuring real-time CRUD modules for destination and booking management.
- Implemented Role-Based Access Control (RBAC) to secure administrative actions and guest record oversight.
- Deployed the Flutter Web admin panel on Vercel with a responsive sidebar-based dashboard architecture. **GitHub**: github.com/Ziad-Gamal12/In-Egypt-Admin-Panel

In Egypt | Flutter Developer | Jul 2025 – Sep 2025

- Developed a comprehensive tourism platform connecting travelers with cultural landmarks, featuring a multi-step booking flow and personalized user dashboards.
- Implemented search and filtering functionality with optimized list rendering across multiple device breakpoints.
- Integrated Fawaterak Payment Gateway and social authentication (Google/Facebook) to streamline the user onboarding and reservation process.

GitHub: github.com/Ziad-Gamal12/In_Egypt

FruitHub | Flutter Developer | May 2025 – Jun 2025

- Developed an E-Commerce application covering onboarding, product browsing, cart management, and order workflows.
- Implemented high-speed local storage using Hive and SharedPreferences for cart persistence and data caching.
- Integrated Firebase Authentication, Cloud Firestore, and Cloud Storage for user authentication, order data, and media management.
- Architected a Feature-First structure (Data/ Domain /Presentation) to ensure code maintainability and scalable feature growth.
